## RICHMOND'S PLUCK.

THE EXPOSITION SCHEME WILL PUT IT TO PRACTICAL TEST.

### Right Straight Along with His Plans.

House Bill No. 153, which was unani- pany, is in the city. mously reported by the committee a few days ago, was on yesterday printed and will be distributed in the House of Delegates to-morrow, when it is expected that sion for a short while yesterday, but no under a suspension of the rules it will be important cases were heard. speedily passed and sent to the Senate. This is the bill incorporating the Virginia State Agricultural and Mechanical ther-in-law, Mr. S. G. Fairbanks.

The bill incorporating the Suburban San Francisco, Cal., arrived in the city and Exposition Railway Company has also been favorably reported by the committee to which it was referred. This contemplates making the transportation accommodations to the exposition grounds an unquestionable fact, and it is stated that whether it should suit the notions or pleasure of the present railway lines to extend their roads out there will not be a consideration—the road will be put down and run all the same. GETTING HINTS.

In a few days a competent man will go to Atlanta and Jacksonville to inspect the buildings at those places and look into all the detailed plans, &c.; also, to gather any information which may be of value in the way of arranging exhibits, handling large crowds at the gates, transportation, hotel arrangements, &c.

LOCOMOTIVE BROTHERHOOD. In the office of President Starke yesterday a Dispatch reporter saw a large photographic group taken last October in Chicago, and upon asking what fine looking body of men they were, Mr. Starke repited: "That's a photograph of the convention of the Brotherheod of Locomotive Engineers of the United States, held in Chicago last year. I am glad you have noticed it, since I want our people to know something of their proposed meeting this year.

This organization, said he, is known the world over. The recent tilt between its grand chief, P. M. Arthur, and Mr. T. V. Powderly, of the Knights of Labor, we have all read about. This pic-ture was left a few days ago by a committee of engineers who called. Here is the programme of their twenty-fourth annual convention, held last October in Chicago. It is quite a volume (153 pages), and on the front page is their motto: "Sobriety and Truth, Justice and Morality, Defence not Defiance, Reason not Violence."

THEY MEET IN BICHMOND.

The Brotherhood of Locomotive Engineers was organized, continued Mr. Starke, in 1863 and now number 25,000, and covers every railroad and every State and Territory in the United States, as well as a large part of the British Provinces and Mexico. Their annual conventions have been held in the past few years in New Orleans, San Francisco, Chicago, New York, &c. This Sc,412.50, year they have decided to convene in It will They have never met in ore. The number of dele-Virginia before. The number of dele-gates sent to these conventions, with their friends, run from 800 to 1,000, and perhaps more. You can see at a glance that there is no body of men—the engine-builders, machinery-manufacturers, and running back to the twenty-foot and electric-men -would go out of their alley referred to above, for which \$18,000 way farther to get before than these. Last year great trains were equipped with nov. I of the Temple Association and that of air-brakes and heating devices, engines Messrs. Tanner and Courtney, on the rigged with newly-parented injectors and inspirators and the many contrivances which inventiveness has brought out recently. These trains, loaded with engineers, were run out on test excursions. Now, I want the Brotherhood to meet course they can arrange all that before-

A MACHINERY EXHIBIT. Think, said Mr Starke, what a machinery exhibit we will have if the country knows that such a committee of judges is going to be here. We won't have to beg them to come, and there is a whole crowd of railroad-men we won't have to beg to come, either. But the engineers must have somewhere to meet. The Armory is the only place that will accommodate their sessions. Now won't it be too bad if we don't have a machinery-hall to take advantage of such a display as we can have in this line? Then we wish to have the exposition be-cause we want a crowd here. We desire these representatives from all over the land to tell the tale all along the routes they run in the busy North and over the wide fields of the West of what a busy lively town Richmond is, what our re-sources are, the magnitude of our waterpower, and the grand display of our mineral and vegetable products, &c.

told that Gilmore sighs because he has no place here to give one of his grand concerts. Now, if our Exposition building were erected we could give him full scope, and many such uses. Be-sides a permanent display would from

time to time be found for it. Mr. Starke says that in this great undertaking he has received encouragement from many people in and out of Rich-mond, but he laments the fact that some of our citizens who ought to have been | An abundance of beantiful dark brown the first to come forward and offer their help have taken no notice at all of the her head, and her entire face denotes undertaking. These men he wishes to strong character and force. In converinterest and arouse, and they can be of

to be done, and while Mr. Starke is gestures one would naturally suppose giving nearly his whole time to it every blic-spirited citizen of Richmond should hold up his hands, and that may be done by letters of encouragement, by offers of personal help, by assurances of financial support, and in the hundred other ways with which a generous spirit knows so well how to inspire sympathy, confidence, and good will.

WHAT HAS BEEN DONE. "Has anything been done?"

Yes, a great deal. In the first place the right plan has been got. It is to capitalize the \$100,000 worth of property of the Agricultural Society. With the uildings erected the property will be worth \$175,000. In ten years it may be worth double that.

In the second place the city of Richmond has given assurance that it will capitalize its \$30,000 interest in the so-

In the third place the Executive Comnittee of the Agricultural Society has bidden Mr. Starke go ahead.

In the fourth place the General Assembly is about to give the necessary legis-

There are some other details to be arrapged, after which our capitalists, business-men, and other public-spirited citizens will be asked to put some of their money in stock, and it will be demonstrated by Mr. Starke and his associates in this enterprise that it will pay-looked at in any possible way.

Branzell Not Yet Out. In the Police Court yesterday the case of Joseph Wooldridge, the negro who, after stabbing Emmet Branzell on Seventeenth street some ten days ago, made flight and took refuge from a pursuing crowd under a wharf in Rocketts, from whence he was dragged by the police when naked and almost frozen, was called and continued until Saturday the 28th instant, the youth not being present.

The accused, who, it was thought at one time, would die from the effects of his

exposure, is about well now, and the boy is doing well.

Shot and Killed. This morning at 2 o'clock John Drumhelder surrendered himself at the Third police station and said that he had shot John Doherty at his (Drumhelder's) house, corner of Second and Duval streets. Drumhelder stated that Doher-

ty trespassed on his premises, but with what intention could not be learned.

Drumhelder is a married man and Doherty was single. The shooting was done with a pistol, and the effects were almost instantly fatal.

#### AN AMERICAN BOY.

with him that he will soon return.

Career of Young Raiston, the Suicidal Son of the California Millionaire. Young Samuel Rulston, who ended his by suicide at Georgetown, Cal, a few

days ago, was pretty well known in New England, especially in Providence, Bos-Taunton, and New Bedford. A Mrs. H. Falkenstein and daughter, of Fall River special says: He came East soon after the suicide of his father, William C. Ralston, the millionaire banker and mine-owner, for the special purpose of studying mechanical engineering, and took up his residence at Providence, R. I., where he went into the great Corliss works as a student and workman. With him came Mrs. Ralston and her two beautiful daughters, and the family occupied several large suites, including more than a dozen rooms, in the Cardenas, Cuba, yesterday with 6,232 Hotel Dorrance. The family lived in bundles of hoops, valued at \$6,232, luxury and made quite an impression on shipped by Messrs. Pitts & Dorrier.

be forgotten.

Young Raiston was in many respects a overalls, toiling as diligently and as earnestly as the humblest workman in the great machine-shops. By night he was the handsome, elegantly-attired, polished gentleman, the lion at the balls and in the parlors of the rich and fashionable. Well educated and brilliant, he was courted by the ladies. Jovial, good-hearted, and a lavish spender of money, he was the leading spirit among the young men. Modest, unassuming and earnest in the pursuit of a practical knowledge of mechanics, he was liked by all his fellow-workmen and soon won the favor of the owners and the foremen of the great machine-works, who gave him every opportunity of obtaining the practical knowledge which he was in search of, and these favors and his quick intelligence enabled him to make rapid

He appeared to have plenty of money, On Thursday last, as stated in the Dispatch of the next morning, Mr. Sylvanus Stokes sold to Colonel William was not of a bad disposition, and as he was supposed to have millions at his dis-E. Tanner and Major Alfred R. Courtney for \$12,200 the lot fronting on Broad ed upon as an ordinary thing. Although and running back along the line of the upon him, he distributed his favors impartially, until he met a charming Chelsea girl of whom he became desperately enamored. On her he spent money lavishly, and she shared the fame of his luminous career.

All this time he continued his work in 85,100; also, from Mr. Caskie and wife, 22] feet on Broad street between Jeffer-son and Madison and 36 feet on Broad street between Madison and Monroe for 86,412,56.

All this time he continued his work in the machine his w It will be remembered that a few Ralston told his reason. Some years reeks are the committee appointed by said that it was the one regret of his life cure a site for the proposed Temple that he had not mastered mechanical en-building purchased the lot at the south-gineering. If he had, he said, he would go corner of Broad and Adams to Siberia and open up mines which would astonish the civilized world, and running back to the twenty-foot This made a deep impression on young alley referred to above, for which \$18,000 Ralston's mind, and after his father's Messrs, Tanner and Courtney, on the same block, there is but one intervening the buried treasures of Siberia. With this end in view he came East and en-Major Courtney was asked yesterday tered the great Corliss works. BERLIN'S BUDGET.

INDICATIONS OF A LESS WARLIKE POLICY.

Austria's Irresolution and Subservience-Revival of the Polish Kingdom Talked Of-The New Anti-Socialist Project.

Berlin, January 21.—Since the official organ of the German army, the Militar Wochenblatt, gave its luminous comparison of the strength of the frontier forces of Germany and Russia, a discussion of the situation has elicited in nothing more definite than a semi-offi-cial statement in several papers to-day that, despite the arrival of additional Russian troops on the frontier, the German Government for the present will not order the counter movement necessary to equalize the strength of the two forces. This is one of several indications that the Government believes that war has been deleyed. The reports reaching the War Office touching the breaking down of the Russian transport service, lack of war ammunitions. defective commissariat, and starvation and disease in the Russian army enable the announcement to be made that Germany maintains a waiting attitude. On the Russian side the discovery that it would be impossible to open effectively Providence society, which will not soon an early campaign has caused the war party to modify its tone.

The Moscow Gazette yesterday indicated the pacific policy of Russia. It

declared that peace was assured unless Russia should be provoked by aggressive acts of her neighbors. The Novoe Vremya protests that Russian armaments are purely defensive.

The Sect disputes the Wochenblatt's figures and tries to prove that Germany

can concentrate a million men on the frontier of Poland within tea days, while Russia's huge areas of territory and imperfect means of transportation render difficult the work of mobilization. The stponement of the rupture is not in accordance with the strategy of the Ber-lin War Office nor with the wishes of Viennese, but continues due to noky with too great subservieuce to Bismarck, and urge that action be taken without waiting for an order from Berlin. The truth of the position, however, is that Bismarck has already fully possessed Kalnoky of the fact that German

initiative to war is impossible, leaving

the Austrian Government free to open

stilities when it deems the time ripe. Another version is semi-officially issued in Vienna to-night of the Russian military attache Zeujeff's recent statement that two new divisions of Russian troops had arrived at the Galician frontier. The first version of this statement, which was also semi-officially given, was distinctly menacing. It is now stated that Zeujeff while conversing with the Austrian officials only stated that the displacement of the divisions would be effected gradually in the course of the present year. He further expressed the hope that no advance would be made, as such a movement would be weakening to Russia's detensive position and would compel her to take measures. This interpretation is obvious ly issued to allay the impatience of the military and political circles of Austria-Hungary, where Kalnoky is becoming distrusted, and plans are maturing to substitute a more energetic Minis-Poles rapidly increases. Their organs in Cracow and Lemburg, while preaching prudence, declare that the people of

Bishop Dunajanski, of Cracow, who is recognized by the Poles as their ecclesiastical leader, has been entreated to assist in the development of a national movement by making a public declaration. But he responds, advising the greatest reserve until events justify action. Since the new anti-Socialist project was placed before the Reichstag opposition has waxed strong from all parties except the Conservative groups. The National Lib. rals seem to be tending toward a decision to reject the measure unless it is greatly modified. The seventy new penalties revolt the National Liberals, who were prepared to concede a partial promulgation of the present law. The National Liberal press joins that of the Progressionists in demanding to know on what principle the new law can punish Germans who take part in socialistic meetings outside of the

Another mistake in the bill is the banvaria, where the Constitution assures the absolute right of all subjects to sojourn born. The Reichstag's edict of expulsion would only operate in Eavaria under special vote of the majority of two thirds of the Munich Parliament. The want of uniformity in the operation of the banishing clause would be fatal to its maintenance. The National Liberal criticism of the project has become so bitter that the organs of that party assail the general spirit of the me It is contended that despite the law the Socialist party grows. The Government is reminded of the failure of all its efforts to arrest an intellectual movement by police laws, and the lessening of repressive measures is demanded as the wiser policy to control the Socialists. The National Liberals blame Minister Von Puttkamer as being responsible for the imprudent features of the measure, and may seize the occasion to try to get him replaced by Herr Von Bennigsin or some other leader in sympathy with their The result of the discontent among this important government group will be that the obnoxious proposals will he abandoned and the period of the operations of the present law be prolonged only two years.

The Tageblatt asserts that both Bavaria and Wurtenberg opposed in the Bundesrath the expulsion clause. The Progressists have introduced in the Reichstag a project for trial by jury of offenders against the press law. Træger and Earth urged the necessity in view of the repressive powers of the pro-posed new Socialist law of surrounding with further guarantees the liberty of expressing public opinion. The bill will

be referred to a committee. The police of Beriin have dispersed Furniture, &c., at 503 north Twelfth several meetings held to discuss the socialist bill. More latitude is allowed outside of Prussia in discussing the measure. Herr Grillenberger, speaking has appeared before the largest audiences at Nuremburg, declared that the banish of the world. He is on the programme ment would not be successful. He said: for Conne Meyers's Minstrels, 'You may expatriate persons but you cannot expatriate the cause. Each banished Socialist will be replaced by several friends. Puttkamer and Bismarck will not live forever. If the base-ness of cowards should lead to party coalitions sufficient to pass the measure, courage and persistent endurance united on the side of progress will finally triumph." Bebel and others freely denounced the measure at reunions in

Saxony.
Since the arrest of Haupt and Schroeder, the alleged spies at Zurich, the Government at Berlin has sent a note to the authorities at Berne suggesting a closer Be sure to hear his "You will Miss Me, appervision of Anarchists taking refuge Chloe, Darling."

THE WALL SHARE THE LAND

near the frontier. The Zurich Socialists assert that Haupt's exposure has led to the cessation of spying on the part of several suspected German agents who have disappeared. It is difficult to say what practical good will result from the

Berlin note, as the Swiss Government is

already exercising its full power of watching under legal limits. Emperor William drove out yesterday for the first time in a fortnight. He looked well. At the reception given to the President of the Landtag the Emperor talked freely and cheerfully, but looked well. At the reception given to the President of the Landtag the Em-peror talked freely and cheerfully, but avoided alluding to the political situa-tion. The abandonment of the Schloss balls and other carnival festivities dulls the whole season. Private receptions are out of mode, only public fetes being maintained. The annual ball in aid of charity, the artists' ball, and dramatic and press balls will be given as usual.

The Crown Prince, in letters to friends, says he is hopeful of returning to Berlin early in the summer. He took a walk, ecompanied by the Prince and Princess of Saxe-Meningen and Prince Henry, his son. An address of condolence and encouragement signed by 180,000 persons will be sent from Berlin to the Crown Prince. The Crown Prince is writing much every day, and it is surmised from the immense quantity of documents and works he has consulted bearing upon the campaigns of Konnigratz and Sedam that he is writing a history of the Austrian and the Franco-German wars. Lord Randolph Churchill left St. Petersburg to-night. He is coming to Ber-

Bishop Bequett, of Georgia, has arrived in Vienna from Palestine. The deficit in the treasury of the Berlin Royal Opera is reported to be 700,000 marks, the largest deficit yet attained.

The Florence Consulate Incident. (By Anglo-American cable to the Dispatch.)
PARIS, January 21.—M. Flourens,
Prime Minister, to day received Count Menabrea, the Italian Ambassador, and it was subsequently announced that the difficulty between France and Italy arising from the Hussein incident at Florence has been settled. The Italian udge whose action precipitated the dispute will be transferred to a post where he will not come in contact with the French Consul. D. The lec ture course will embrace the methods of correcting the different errors of refrac-

tific and practical manner. 1201 Main

It is Not Wonderful that the Fischer Pianos are universally popular. They have been on the market for *hifty years*. There are 75,000 in use. They are bonestly made. They are moderate in price. In the last few years Messrs, kyland & Lee, of this city here all a realized to the control of th city, have sold nearly one thousand of them. Not one has ever come back be-cause of defective workmanship. Call and get one on easy payments.

Constable Brothers, 419 East Broad

are selling off their Underwear and Gloves at cost. Men's heavy Driving Gloves, 17, 25, 39, and 49c., reduced from 50c., 81, and \$1.50. This is about half the cost. Ladies' Scarlet All-Wool Vests 50c., were \$1. Ladies' White Merino Vests 25c., were 50c. Boys' Merino Shirts and Drawers 38c., were 75c.

Materials for painting china used were from 215 east Broad street, Sol J. Binswanger's, dealer in Glass, Paints, &c., and Photograph Stock. All travellers know of this Artist-Material Supply
